

SUBJECT INDEX

A

- Abducens nerve**
 - Anterior segment ischemia after the Jensen procedure in a 10-year-old patient, 524
 - Optic disk swelling and abducens palsies associated with OKT3, 664
- Ablation zone**
 - The effect of globe fixation on ablation zone centration in photorefractive keratectomy, 612
- Abscess**
 - Psoriatic corneal abscess, 800
- Acanthamoeba sp.**
 - Infection after radial keratotomy, 798
- Acquired immunodeficiency syndrome**
 - Corneal lipidosis in patients with the acquired immunodeficiency syndrome, 14
 - Deficits in perimetric performance in patients with symptomatic human immunodeficiency virus infection or acquired immunodeficiency syndrome, 335
 - Dose-related difference in progression rates of cytomegalovirus retinopathy during foscarnet maintenance therapy, 576
 - Phase I/II study of intravitreal cidofovir (HPMPC) for the treatment of cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome, 466
 - Treatment of progressive outer retinal necrosis with sorivudine, 516
 - Viral sensitivity testing in patients with cytomegalovirus retinitis clinically resistant to foscarnet or ganciclovir, 587
- Acute multifocal placoid pigment epitheliopathy**
 - Recurrent acute multifocal placoid pigment epitheliopathy in two cousins, 660
- Acute myeloid leukemia**
 - Relapsing acute myeloid leukemia manifesting as hypopyon uveitis, 361
- Acute zonal occult outer retinopathy**
 - Acute annular outer retinopathy as a variant of acute zonal occult outer retinopathy, 330
- Adenocarcinoma**
 - Clinicopathologic correlation of a case of adenocarcinoma of the retinal pigment epithelium, 243
- Adenoma**
 - Metastatic tumors to the pituitary, 779
- Aging**
 - Reappraisal of biomicroscopic classification of stages of development of a macular hole, 752
 - Scanning laser ophthalmoscopic analysis of the pattern of visual loss in age-related geographic atrophy of the macula, 143
- Air storage hood**
 - Safety of a clean air storage hood for ophthalmic instruments in the operating room, 350
- Aldose reductase inhibitor**
 - Reversal of abnormal corneal epithelial cell morphologic characteristics and reduced corneal sensitivity in diabetic patients by aldose reductase inhibitor, CT-112, 288
- Allograft**
 - Local therapy of corneal allograft rejection with cyclosporine, 189
- Altitude**
 - Refractive changes at extreme altitude after radial keratotomy, 733
- Amyloidosis**
 - Electrophysiologic abnormalities in two cases of familial amyloidosis, 662
- Angioid streaks**
 - Indocyanine green videoangiography of angioid streaks, 136
- Angle-closure glaucoma**
 - Increased prevalence of occludable angles and angle-closure glaucoma in patients with pseudoexfoliation (correspondence), 526
- Anorexia nervosa**
 - Central retinal vein occlusion in a patient with anorexia nervosa, 109
- Anterior chamber**
 - Fluorophotometry in myopic phakic eyes with anterior chamber intraocular lenses to correct severe myopia (correspondence), 381
 - Microorganisms cultured from the anterior chamber of ruptured globes at the time of repair, 181
- Anterior segment**
 - Anterior segment ischemia after the Jensen procedure in a 10-year-old patient, 524
- Antibiotic**
 - The effect of povidone-iodine solution applied at the conclusion of ophthalmic surgery, 701
 - Vancomycin levels in the vitreous cavity after intravenous administration, 774
- Aphakia**
 - Pars plana Baerveldt tube insertion with vitrectomy in glaucomas associated with pseudophakia and aphakia, 401
- Aqueous humor**
 - Bilateral ocular toxocariasis demonstrated by aqueous humor enzyme-linked immunosorbent assay, 514
- Artery**
 - Branch retinal artery occlusion caused by a mitral valve papillary fibroelastoma, 325
- Artificial tears**
 - The effect of artificial tears on computer-assisted corneal topography in normal eyes and after penetrating keratoplasty, 712
- Aspergillus sp.**
 - Endogenous *Aspergillus* endophthalmitis after lung transplantation, 107
 - Microorganisms cultured from the anterior chamber of ruptured globes at the time of repair, 181

B

Bacteria

The effect of cleaning and disinfection of soft contact lenses on corneal infectivity in an animal model, 738

Vancomycin levels in the vitreous cavity after intravenous administration, 774

Baerveldt tube

Pars plana Baerveldt tube insertion with virectomy in glaucomas associated with pseudophakia and aphakia, 401

Bleb

Use of the Hoskins lens in needle revision of a failed bleb after filtration surgery, 232

Blood-aqueous barrier

Studies of the blood-aqueous barrier in diabetes mellitus (correspondence), 111

Books and Computer Software

A. Edward Maumenee, M.D., *Ophthalmology Oral History Series. A Link with our Past. An Oral History Conducted in 1990 by Sally Smith Hughes*, by American Academy of Ophthalmology, 531

ABC of Eyes, second edition, by Khaw, P. T., and Elkington, A. R. (eds.), 530

Advances in Clinical Ophthalmology, Vol. 1, by Burde, R. M., Slamovits, T. L., Engle, H. M., Fleischman, J. A., Gurland, J., Hersch, P., Lauer, S. A., Mayers, M., and Rosenbaum, P., 114

The AIDS Knowledge Base, second edition, by Cohen, P. T., Sande, M. A., and Volberding, P. A. (eds.), 387

American Society of Ophthalmic Plastic & Reconstructive Surgery. *The First Twenty-Five Years: 1969-1994. History of Ophthalmic Plastic Surgery: 2500 BC-AD 1994*, by Reifler, D. M. (ed.), 387

Atlas of Clinical and Surgical Orbital Anatomy, by Dutton, J. J., 671

Atlas of Iris Fluorescein Angiography, by Brancato, R., Bandello, F., and Lattanzio, R., 672

Basic Techniques of Fluorescein Angiography, by Kelly, M. P., 823

Blindness and Children. *An Individual Differences Approach*, by Warren, D. H., 822

Clinical Decisions in Medical Retinal Disease, by Tasman, W. S. (ed.), 385

The Clinical Handbook of Ophthalmology, by Small, R. G., 530

Clinical Ophthalmology. *A Text and Colour Atlas*, third edition, by Banks, J. L. K., 530

Clinical Reference Software. *Ophthalmology Advisor*, by , 117

Color Atlas of Ophthalmic Surgery. *Retinal Surgery and Ocular Trauma*, by Wright, K. W. (ed.), 671

Current Techniques in Ophthalmic Laser Surgery, second edition, by Benson, W. E., Coscas, G., and Katz, L. J. (eds.), 820

Early Visual Development, Normal and Abnormal, by Simons, K. (ed.), 116

The Excimer. *Fundamentals and Clinical Use*, by Stein, H. Å., Cheskes, A., and Stein, R. M., 531

The Eye in Clinical Practice, by Frith, P. (ed.), 248

Havener's Ocular Pharmacology, sixth edition, by Mauger, T. F., and Craig, E. L. (eds.), 527

The Health Robbers. *A Close Look at Quackery in America*, by Barrett, S., and Jarvis, W. T. (eds.), 388

The History of Ophthalmology, Vol. 11/3 part D, by Hirschberg, J., 250

Incision Keratotomy, by Casebeer, J. C., 822

International Ophthalmology Clinics. *Controversies in Ophthalmology*, Vol. 34, by Jakobeic, F. A., Adamis, A. P., and Volpe, N. J. (eds.), 822

Lacrimal Gland, Tear Film, and Dry Eye Syndromes. *Basic Science and Clinical Relevance*, by Sullivan, D. A. (ed.), 387

Management of High Risk Glaucoma, by Sherwood, M. B., 823

Manual of Orbital and Lacrimal Surgery, by McNab, A. A., 822

Manuel de Strabologie Pratique. *Aspects Cliniques et Therapeutiques*, by Jeanrot, N., and Jeanrot, F., 823

Medical Cornea. *Corneal and Refractive Surgery*, by Selser, R. E., Jr. (ed.), 249

Medicine and the Five Senses, by Bynum, W. F., and Porter, R. (eds.), 824

Ophthalmology. *A Primer for Medical Students and Practitioners*, by Phillips, C. I., Clark, C. V., and Tsukahara, S., 529

Pediatric Ophthalmology. *A Text Atlas*, by Catalano, R. A., and Nelson, L. B., 116

Primary Low Vision Care, by Nowakowski, R. W., 528

Prisms in the Medical and Surgical Management of Strabismus, by Veronneau-Troutman, S., 821

Resumes and Personal Statements for Health Professionals, by Tysinger, J. W., 388

Retina, second edition, by Ryan, S. J. (ed.), 385

Scientific Style and Format. *The CBE Manual for Authors, Editors, and Publishers*, sixth edition, by Style Manual Committee of the Council of Biology Editors, 823

Sjögren's Syndrome. *State of the Art*, by Homma, M., Sugai, S., Tojo, T., Miyaska, N., and Akizuki, M. (eds.), 821

Slide Atlas of Fluorescein Angiography, by Harney, B. A., Hart, J. C. D., and Grey, R. H. B., 247

Strabismus. *A Decision Making Approach*, by von Noorden, G. K., and Helveston, E. M., 386

Therapy with Botulinum Toxin, by Jankovic, J., and Hallert, M. (eds.), 115

Visual Sciences and Engineering. *Models and Applications*, by Kelly, D. H. (ed.), 249

Work and the Eye, by North, R. V., 247

25th Anniversary of the Alta California Eye Research Foundation, by Alta California Research Foundation, 531

Botulinum toxin

Unsatisfactory treatment of acquired nystagmus with retrobulbar injection of botulinum toxin, 489

Branch retinal vein occlusion

Branch retinal vein occlusion in a child with ocular sarcoidosis, 806

C**Calcium channel blocker**

Color Doppler ultrasound analysis of ocular circulation after topical calcium channel blocker, 694

Candida sp.

Treatment of ocular fungal infections with oral fluconazole, 477

Canthaxanthin retinopathy

Asymmetric canthaxanthin retinopathy, 801

Carotid artery

Horner's syndrome in subadventitial carotid artery dissection and the role of magnetic resonance angiography, 811

Cataract

Cataract in infants treated with argon laser photocoagulation for threshold retinopathy of prematurity, 175

Incidence of cataract surgery in the Wisconsin epidemiologic study of diabetic retinopathy, 295

Increased comfort and decreased inflammation of the eye by cooling after cataract surgery, 301

Membranous outgrowth suggesting lens epithelial cell proliferation in pseudophakic eyes, 706

Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657

Open-angle glaucoma after pars plicata lensectomy and vitrectomy for congenital cataracts, 103

Ovadendron sulphureo-ochraceum endophthalmitis after cataract surgery, 307

Prospective incidence of photic maculopathy after cataract surgery, 231

Central retinal vein

Plasmapheresis treatment of central retinal vein occlusion in a young adult, 519

Cerebral gigantism

Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657

Children

Aggressive nevus of the iris with secondary glaucoma in a child, 367

Anterior segment ischemia after the Jensen procedure in a 10-year-old patient, 524

Branch retinal vein occlusion in a child with ocular sarcoidosis, 806

Influence of the time interval between instillation of two drops of cyclopentolate 1% on refraction and dilation of the pupil in children, 637

Vitrectomy lens for examination of the optic disk in young children with glaucoma, 523

Chlamydia sp.

Incidence of adenoviral and chlamydial coinfection in acute follicular conjunctivitis, 652

Chlorambucil

Chlorambucil therapy in sympathetic ophthalmia, 482

Choristoma

Episcleral osteocartilaginous choristoma, 654

Natural course and histopathologic findings of lacrimal gland choristoma of the iris and ciliary body, 219

Choroid

Choroidal and retinal detachment in antineutrophil cytoplasmic antibody-positive scleritis, 517

Clinical features and treatment of seven patients with carcinoid tumor metastatic to the eye and orbit, 211

Clinicopathologic study of retinal and choroidal biopsies in intraocular inflammation, 597

Ophthalmoscopic visualization of the inferior ophthalmic vein through a chorioretinal coloboma, 242

Retinal trypsin digest study of cystoid macular edema associated with peripheral choroidal melanoma, 152

Chromosome 4

Duane's retraction syndrome associated with chromosome 4q27-31 segment deletion, 807

Cidofovir

Phase I/II study of intravitreal cidofovir (HPMPC) for the treatment of cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome, 466

Ciliary body

Natural course and histopathologic findings of lacrimal gland choristoma of the iris and ciliary body, 219

Coloboma

Ophthalmoscopic visualization of the inferior ophthalmic vein through a chorioretinal coloboma, 242

Color Doppler imaging

Color Doppler imaging and spectral analysis of the optic nerve vasculature in glaucoma, 685

Color Doppler ultrasound analysis of ocular circulation after topical calcium channel blocker, 694

Conjunctiva

Conjunctival foreign body from a cosmetic facial scrub, 237

Fractionated epibulbar I-125 plaque radiotherapy for recurrent mucoepidermoid carcinoma of the bulbar conjunctiva, 102

Conjunctivitis

Incidence of adenoviral and chlamydial coinfection in acute follicular conjunctivitis, 652

Contact lens

The effect of cleaning and disinfection of soft contact lenses on corneal infectivity in an animal model, 738

Infection after radial keratotomy, 798

Mottled cyan opacification of the posterior cornea in contact lens wearers, 620

Cornea

Assessment of intraocular pressure by palpation, 650

Assessment of the power and height of radial aspheres reported by a computer-assisted keratoscope, 723

Corneal lipidosis in patients with the acquired immunodeficiency syndrome, 14

- The effect of cleaning and disinfection of soft contact lenses on corneal infectivity in an animal model, 738
- The effect of globe fixation on ablation zone centration in photorefractive keratectomy, 612
- Histologic evidence of recurrent keratoconus seven years after keratoplasty, 511
- Infection after radial keratotomy, 798
- Local therapy of corneal allograft rejection with cyclosporine, 189
- Mottled cyan opacification of the posterior cornea in contact lens wearers, 620
- Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657
- Poor correlation between reactive syphilis serology and human immunodeficiency virus testing among potential cornea donors, 1
- Psoriatic corneal abscess, 800
- Refractive changes at extreme altitude after radial keratotomy, 733
- Reversal of abnormal corneal epithelial cell morphologic characteristics and reduced corneal sensitivity in diabetic patients by aldose reductase inhibitor, CT-112, 288
- Screening corneas for human immunodeficiency virus type 1 proviral DNA by polymerase chain reaction, 7
- Syphilis, serologic testing, and the setting of standards for eye banks, 93
- Topical fibronectin ophthalmic solution in the treatment of persistent defects of the corneal epithelium, 281
- Topographic determination of corneal asphericity and its lack of effect on the refractive outcome of radial keratotomy, 275
- Corneal topography**
- The effect of artificial tears on computer-assisted corneal topography in normal eyes and after penetrating keratoplasty, 712
- Corrections**
- Inadvertent sclerostomy during transscleral Nd:YAG cyclophotocoagulation—correction (correspondence), 526
- Primary herpes simplex virus infection with geographic conjunctival ulceration, 125
- Corynebacterium sp.**
- Microorganisms cultured from the anterior chamber of ruptured globes at the time of repair, 181
- Creutzfeldt-Jakob disease**
- Homonymous field defect as the first manifestation of Creutzfeldt-Jakob disease, 497
- Cryotherapy**
- Quantitation of retinal ablation in proliferative diabetic retinopathy, 760
- Cup/disk ratio**
- Agreement between clinicians and a confocal scanning laser ophthalmoscope in estimating cup/disk ratios, 415
- Cuterebra sp.**
- Cuterebra* ophthalmomyiasis, 512
- Cyclodeviation**
- Cyclodeviation in skew deviation (correspondence), 815
- Cyclopentolate**
- Influence of the time interval between instillation of two drops of cyclopentolate 1% on refraction and dilation of the pupil in children, 637
- Cyclophotocoagulation**
- Inadvertent sclerostomy during transscleral Nd:YAG cyclophotocoagulation—correction (correspondence), 526
- Cyclosporine**
- Local therapy of corneal allograft rejection with cyclosporine, 189
- Cystoid macular edema**
- Retinal trypsin digest study of cystoid macular edema associated with peripheral choroidal melanoma, 152
- Cytomegalovirus retinitis**
- Phase I/II study of intravitreal cidofovir (HPMPC) for the treatment of cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome, 466
- Viral sensitivity testing in patients with cytomegalovirus retinitis clinically resistant to foscarnet or ganciclovir, 587
- Cytomegalovirus retinopathy**
- Dose-related difference in progression rates of cytomegalovirus retinopathy during foscarnet maintenance therapy, 576
- D**
- Dacryops**
- Combined dacryops with underlying benign mixed cell tumor of the lacrimal gland, 97
- Diabetes mellitus**
- Reversal of abnormal corneal epithelial cell morphologic characteristics and reduced corneal sensitivity in diabetic patients by aldose reductase inhibitor, CT-112, 288
- Studies of the blood-aqueous barrier in diabetes mellitus (correspondence), 111
- Vitrectomy for proliferative diabetic retinopathy with severe equatorial fibrovascular proliferation, 563
- Diabetic retinopathy**
- Incidence of cataract surgery in the Wisconsin epidemiologic study of diabetic retinopathy, 295
- Disinfection**
- The effect of cleaning and disinfection of soft contact lenses on corneal infectivity in an animal model, 738
- Dissociated vertical deviation**
- The prevalence of dissociated vertical deviation in patients with sensory heterotropia, 744
- DNA**
- Screening corneas for human immunodeficiency virus type 1 proviral DNA by polymerase chain reaction, 7
- Donor**
- Syphilis, serologic testing, and the setting of standards for eye banks, 93
- Duane's retraction syndrome**
- Duane's retraction syndrome associated with chromosome 4q27-31 segment deletion, 807
- Dystrophy**
- Retinal photoreceptor dystrophies. LI Edward Jackson Memorial Lecture, 543

E

Echography

- Comparison of standardized echography with magnetic resonance imaging to measure extraocular muscle size (correspondence), 383

Editorials

- International Council of Ophthalmology (SPIVEY, B. E.), 647
- Reminiscences after 25 years of pars plana vitrectomy (MACHEMER, R.), 505

Endophthalmitis

- The effect of povidone-iodine solution applied at the conclusion of ophthalmic surgery, 701
- Endogenous *Aspergillus* endophthalmitis after lung transplantation, 107
- Evaluation of vitrectomy machines as a source of false-positive culture contamination in endophthalmitis, 62
- Ovadendron sulphureo-ochraceum* endophthalmitis after cataract surgery, 307

Enucleation

- No demonstrated effect of pre-enucleation irradiation on survival of patients with uveal melanoma, 786

Enzyme-linked immunosorbent assay

- Bilateral ocular toxocariasis demonstrated by aqueous humor enzyme-linked immunosorbent assay, 514

Epithelium

- Membranous outgrowth suggesting lens epithelial cell proliferation in pseudophakic eyes, 706
- Ophthalmic manifestations of Rathke's cleft cysts, 86
- Topical fibronectin ophthalmic solution in the treatment of persistent defects of the corneal epithelium, 281

Esotropia

- Critical period for restoration of normal stereoacuity in acute-onset comitant esotropia (correspondence), 667
- The prevalence of dissociated vertical deviation in patients with sensory heterotropia, 744

Exophoria

- Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657

Exotropia

- Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657
- The prevalence of dissociated vertical deviation in patients with sensory heterotropia, 744

Eye bank

- Syphilis, serologic testing, and the setting of standards for eye banks, 93

Eyelid

- Electromyographic studies of the reconstructed lower eyelid after a modified Hughes procedure, 225
- Eyelid laceration sustained in an attack by a rabid desert fox, 651
- A minor modification of the Hughes' operation for lower eyelid reconstruction, 96
- Sarcoidosis of the eyelid skin, 100

F

Fibronectin

- Topical fibronectin ophthalmic solution in the treatment of persistent defects of the corneal epithelium, 281

Fibrovascular proliferation

- Vitrectomy for proliferative diabetic retinopathy with severe equatorial fibrovascular proliferation, 563

Filtration surgery

- Excimer laser filtration surgery, 40
- Use of the Hoskins lens in needle revision of a failed bleb after filtration surgery, 232

Fixation

- The effect of globe fixation on ablation zone centration in photorefractive keratectomy, 612

Fluconazole

- Treatment of ocular fungal infections with oral fluconazole, 477

Fluorescein angiography

- Laser energy and dye fluorescence transmission through blood in vitro, 452

Fluorescence

- Laser energy and dye fluorescence transmission through blood in vitro, 452

Fluorophotometry

- Fluorophotometry in myopic phakic eyes with anterior chamber intraocular lenses to correct severe myopia (correspondence), 381

Forceps

- Surgical techniques for repositioning a dislocated intraocular lens, repair of iridodialysis, and secondary intraocular lens implantation using innovative 25-gauge forceps, 165

Foreign body

- Conjunctival foreign body from a cosmetic facial scrub, 237

Foscarnet

- Dose-related difference in progression rates of cytomegalovirus retinopathy during foscarnet maintenance therapy, 576
- Viral sensitivity testing in patients with cytomegalovirus retinitis clinically resistant to foscarnet or ganciclovir, 587

Fovea

- Clinical correlation of ultrasonographic findings in macular holes, 441

Fusarium sp.

- Infection after radial keratotomy, 798

G

Ganciclovir

- Viral sensitivity testing in patients with cytomegalovirus retinitis clinically resistant to foscarnet or ganciclovir, 587

Genetics

- Duane's retraction syndrome associated with chromosome 4q27-31 segment deletion, 807
- Electrophysiologic abnormalities in two cases of familial amyloidosis, 662
- Retinitis pigmentosa associated with a dominant mutation in codon 46 of the peripherin/RDS gene (arginine-46-stop), 65

Risk of false-positive molecular genetic diagnosis of Leber's hereditary optic neuropathy, 245

Geographic atrophy

Scanning laser ophthalmoscopic analysis of the pattern of visual loss in age-related geographic atrophy of the macula, 143

Glaucoma

Adjunctive mitomycin C in primary trabeculectomy in phakic eyes, 30

Aggressive nevus of the iris with secondary glaucoma in a child, 367

Agreement between clinicians and a confocal scanning laser ophthalmoscope in estimating cup/disk ratios, 415

Color Doppler imaging and spectral analysis of the optic nerve vasculature in glaucoma, 685

Color Doppler ultrasound analysis of ocular circulation after topical calcium channel blocker, 694

Comparison of high-pass resolution perimetry and standard automated perimetry in glaucoma, 195

Excimer laser filtration surgery, 40

Increased prevalence of occludable angles and angle-closure glaucoma in patients with pseudoexfoliation (correspondence), 526

Lateral geniculate nucleus in glaucoma (correspondence), 111

Open-angle glaucoma after pars plicata lensectomy and vitrectomy for congenital cataracts, 103

Pars plana Baerveldt tube insertion with vitrectomy in glaucomas associated with pseudophakia and aphakia, 401

Picosecond neodymium:yttrium lithium fluoride (Nd:YLF) laser peripheral iridotomy, 408

Pressure-dependent changes of the optic disk in primary open-angle glaucoma, 313

Scanning laser polarimetry to measure the nerve fiber layer of normal and glaucomatous eyes, 627

Vitrectomy lens for examination of the optic disk in young children with glaucoma, 523

Glial-neural hamartoma

Tonic pupil and orbital glial-neural hamartoma in infancy, 809

Globe

The effect of globe fixation on ablation zone centration in photorefractive keratectomy, 612

Microorganisms cultured from the anterior chamber of ruptured globes at the time of repair, 181

Graft

Optic disk swelling and abducens palsies associated with OKT3, 664

Graves' ophthalmopathy

Diagnostic criteria for Graves' ophthalmopathy, 792

H

Hamartoma

Long-term observation of retinal lesions in tuberous sclerosis, 318

Tonic pupil and orbital glial-neural hamartoma in infancy, 809

Hemangiopericytoma

Lacrimal gland hemangiopericytoma, 99

Hemianopsia

Homonymous field defect as the first manifestation of Creutzfeldt-Jakob disease, 497

Hemorrhage

A prospective study of dense spontaneous vitreous hemorrhage, 458

White-centered retinal hemorrhages as an early sign of pre-eclampsia, 804

Hepatitis C

Interferon treatment of Mooren's ulcers associated with hepatitis C, 365

Herpes simplex virus

Possible role of herpes simplex virus in the origin of Posner-Schlossman syndrome, 796

Horner's syndrome

Horner's syndrome in subadventitial carotid artery dissection and the role of magnetic resonance angiography, 811

Hoskins lens

Use of the Hoskins lens in needle revision of a failed bleb after filtration surgery, 232

HPMPC

Phase I/II study of intravitreal cidofovir (HPMPC) for the treatment of cytomegalovirus retinitis in patients with the acquired immunodeficiency syndrome, 466

Hughes procedure

Electromyographic studies of the reconstructed lower eyelid after a modified Hughes procedure, 225

A minor modification of the Hughes' operation for lower eyelid reconstruction, 96

Human immunodeficiency virus

Deficits in perimetric performance in patients with symptomatic human immunodeficiency virus infection or acquired immunodeficiency syndrome, 335

Poor correlation between reactive syphilis serology and human immunodeficiency virus testing among potential cornea donors, 1

Screening corneas for human immunodeficiency virus type 1 proviral DNA by polymerase chain reaction, 7

Syphilis, serologic testing, and the setting of standards for eye banks, 93

Hydroxyapatite

Gadolinium-enhanced magnetic resonance imaging assessment of hydroxyapatite orbital implants, 431

Hypertension

Hypertension and lens opacities from the Beaver Dam Eye Study, 640

Hypo-orbitism

Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657

Hypoplasia

Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657

Hypopyon

Relapsing acute myeloid leukemia manifesting as hypopyon uveitis, 361

I

Idiopathic preretinal macular fibrosis

Oval defect in detached posterior hyaloid membrane in idiopathic preretinal macular fibrosis (correspondence), 814

Implant

Gadolinium-enhanced magnetic resonance imaging assessment of hydroxyapatite orbital implants, 431

Indocyanine green

Indocyanine green videoangiography of angioid streaks, 136

Infants

Clinical course and systemic correlates of retinopathy of prematurity in quintuplets, 658

Diode laser photocoagulation for threshold retinopathy of prematurity in eyes with tunica vasculosa lentis, 748

Open-angle glaucoma after pars plicata lensectomy and vitrectomy for congenital cataracts, 103

Tonic pupil and orbital glial-neural hamartoma in infancy, 809

Inflammation

Clinicopathologic study of retinal and choroidal biopsies in intraocular inflammation, 597

Increased comfort and decreased inflammation of the eye by cooling after cataract surgery, 301

Interferon

Interferon treatment of Mooren's ulcers associated with hepatitis C, 365

Intraocular lens

Combined phacoemulsification, posterior chamber intraocular lens implantation, and trabeculectomy with mitomycin C, 20

Fluorophotometry in myopic phakic eyes with anterior chamber intraocular lenses to correct severe myopia (correspondence), 381

Surgical techniques for repositioning a dislocated intraocular lens, repair of iridodialysis, and secondary intraocular lens implantation using innovative 25-gauge forceps, 165

Intraocular pressure

Assessment of intraocular pressure by palpation, 650

Pressure-dependent changes of the optic disk in primary open-angle glaucoma, 313

Sudden increase in intraocular pressure as an initial manifestation of myelodysplastic syndrome, 370

Intubation

Silicone intubation without intranasal fixation for treatment of congenital nasolacrimal duct obstruction (correspondence), 668

Silicone intubation without intranasal fixation for treatment of congenital nasolacrimal duct obstruction (correspondence), 816

Iridodialysis

Surgical techniques for repositioning a dislocated intraocular lens, repair of iridodialysis, and secondary intraocular lens implantation using innovative 25-gauge forceps, 165

Iridotomy

Picosecond neodymium:yttrium lithium fluoride (Nd:YLF) laser peripheral iridotomy, 408

Iris

Aggressive nevus of the iris with secondary glaucoma in a child, 367

Natural course and histopathologic findings of lacrimal gland choristoma of the iris and ciliary body, 219

Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657

Irradiation

No demonstrated effect of pre-enucleation irradiation on survival of patients with uveal melanoma, 786

Ischemia

Anterior segment ischemia after the Jensen procedure in a 10-year-old patient, 524

J

Jackson, Edward

Retinal photoreceptor dystrophies. LI Edward Jackson Memorial Lecture, 543

K

Keratotomy

Clinical analysis of excimer laser photorefractive keratectomy using a multiple zone technique for severe myopia, 263

Keratitis

Bilateral *Serratia marcescens* keratitis after simultaneous bilateral radial keratotomy, 233

Keratoconus

Biomicroscopic evidence of keratoconus with an apex power of 45.5 diopters by videokeratoscopy, 366

Histologic evidence of recurrent keratoconus seven years after keratoplasty, 511

Keratoplasty

Histologic evidence of recurrent keratoconus seven years after keratoplasty, 511

Keratotomy

Assessment of the power and height of radial aspheres reported by a computer-assisted keratoscope, 723

L

Laceration

Eyelid laceration sustained in an attack by a rabid desert fox, 651

Lacrimal apparatus

Silicone intubation without intranasal fixation for treatment of congenital nasolacrimal duct obstruction (correspondence), 816

Lacrimal gland

Combined dacryops with underlying benign mixed cell tumor of the lacrimal gland, 97

Lacrimal gland hemangiopericytoma, 99

Natural course and histopathologic findings of lacrimal gland choristoma of the iris and ciliary body, 219

Laser

- Accidental Nd:YAG laser injuries to the macula, 767
- Cataract in infants treated with argon laser photocoagulation for threshold retinopathy of prematurity, 175
- Clinical analysis of excimer laser photorefractive keratectomy using a multiple zone technique for severe myopia, 263
- Diode laser photocoagulation for threshold retinopathy of prematurity in eyes with tunica vasculosa lentis, 748
- Excimer laser filtration surgery, 40
- Inadvertent sclerostomy during transscleral Nd:YAG cyclophotocoagulation—correction (correspondence), 526
- Laser energy and dye fluorescence transmission through blood in vitro, 452
- Picosecond neodymium:yttrium lithium fluoride (Nd:YLF) laser peripheral iridotomy, 408
- Reproducibility of retinal nerve fiber layer evaluation by dynamic scanning laser ophthalmoscopy (correspondence), 666
- Scanning laser polarimetry to measure the nerve fiber layer of normal and glaucomatous eyes, 627
- Scleromalacia after retinal detachment surgery, 803

Lateral geniculate myelinolysis

- Hourglass-shaped visual fields as a sign of bilateral lateral geniculate myelinolysis, 378

Lateral geniculate nucleus

- Lateral geniculate nucleus in glaucoma (correspondence), 111

Leber's hereditary optic neuropathy

- Risk of false-positive molecular genetic diagnosis of Leber's hereditary optic neuropathy, 245

Lens

- Hypertension and lens opacities from the Beaver Dam Eye Study, 640
- Lens changes after proton beam irradiation for uveal melanoma, 157
- Membranous outgrowth suggesting lens epithelial cell proliferation in pseudophakic eyes, 706

Lensectomy

- Open-angle glaucoma after pars plicata lensectomy and vitrectomy for congenital cataracts, 103

Lipidosis

- Corneal lipidosis in patients with the acquired immunodeficiency syndrome, 14

Lyme borreliosis

- Diagnosis and clinical characteristics of ocular Lyme borreliosis, 127

M

Macula

- Accidental Nd:YAG laser injuries to the macula, 767
- Clinical correlation of ultrasonographic findings in macular holes, 441
- Early stage of macular hole in a severely myopic eye, 240
- Macular pseudohypopyon from secondary syphilis, 372
- Macular sparing as a perimetric artifact, 72

Prognosis of stage 2 macular holes, 571

- Progression of nuclear sclerosis and long-term visual results of vitrectomy with transforming growth factor beta-2 for macular holes (correspondence), 819

- Progression of nuclear sclerosis and long-term visual results of vitrectomy with transforming growth factor beta-2 for macular holes, 48

- Reappraisal of biomicroscopic classification of stages of development of a macular hole, 752

- Retinal trypsin digest study of cystoid macular edema associated with peripheral choroidal melanoma, 152

- Scanning laser ophthalmoscopic analysis of the pattern of visual loss in age-related geographic atrophy of the macula, 143

Maculopathy

- Prospective incidence of photic maculopathy after cataract surgery, 231

Magnetic resonance angiography

- Horner's syndrome in subadventitial carotid artery dissection and the role of magnetic resonance angiography, 811

Magnetic resonance imaging

- Comparison of standardized echography with magnetic resonance imaging to measure extraocular muscle size (correspondence), 383

- Gadolinium-enhanced magnetic resonance imaging assessment of hydroxyapatite orbital implants, 431

Mast cell

- Increased numbers of mast cells in pterygia, 236

Megalophthalmos

- Ocular findings in a family with Sotos syndrome (cerebral gigantism), 657

Melanoma

- Lens changes after proton beam irradiation for uveal melanoma, 157

- Melanoma-associated retinopathy, 369

- No demonstrated effect of pre-enucleation irradiation on survival of patients with uveal melanoma, 786

- Retinal trypsin digest study of cystoid macular edema associated with peripheral choroidal melanoma, 152

Metastasis

- Metastatic tumors to the iris in 40 patients, 422

Mitomycin C

- Adjunctive mitomycin C in primary trabeculectomy in phakic eyes, 30

- Combined phacoemulsification, posterior chamber intraocular lens implantation, and trabeculectomy with mitomycin C, 20

Mooren's ulcer

- Interferon treatment of Mooren's ulcers associated with hepatitis C, 365

Mucoepidermoid carcinoma

- Fractionated epibulbar I-125 plaque radiotherapy for recurrent mucoepidermoid carcinoma of the bulbar conjunctiva, 102

Mucosa

Hard-palate mucosa graft in Stevens-Johnson syndrome (correspondence), 817

Muscle

Comparison of standardized echography with magnetic resonance imaging to measure extraocular muscle size (correspondence), 383

Myelodysplastic syndrome

Sudden increase in intraocular pressure as an initial manifestation of myelodysplastic syndrome, 370

Myopia

Clinical analysis of excimer laser photorefractive keratectomy using a multiple zone technique for severe myopia, 263

Early stage of macular hole in a severely myopic eye, 240

Fluorophotometry in myopic phakic eyes with anterior chamber intraocular lenses to correct severe myopia (correspondence), 381

Topographic determination of corneal asphericity and its lack of effect on the refractive outcome of radial keratotomy, 275

N

Nasolacrimal duct

Intranasal visualization for nasolacrimal duct intubation, 655

Silicone intubation without intranasal fixation for treatment of congenital nasolacrimal duct obstruction (correspondence), 668

Silicone intubation without intranasal fixation for treatment of congenital nasolacrimal duct obstruction (correspondence), 816

Neovascularization

Laser energy and dye fluorescence transmission through blood in vitro, 452

Nerve

Reproducibility of retinal nerve fiber layer evaluation by dynamic scanning laser ophthalmoscopy (correspondence), 666

Nerve fiber

Scanning laser polarimetry to measure the nerve fiber layer of normal and glaucomatous eyes, 627

Nevus

Aggressive nevus of the iris with secondary glaucoma in a child, 367

Nuclear sclerosis

Progression of nuclear sclerosis and long-term visual results of vitrectomy with transforming growth factor beta-2 for macular holes (correspondence), 819

Progression of nuclear sclerosis and long-term visual results of vitrectomy with transforming growth factor beta-2 for macular holes, 48

Nystagmus

Unsatisfactory treatment of acquired nystagmus with retrobulbar injection of botulinum toxin, 489

O

Obituaries

Duehr, Peter A. 1903-1994 (HUTSON, C. F.), 683

Occlusion

Branch retinal artery occlusion caused by a mitral valve papillary fibroelastoma, 325

Central retinal vein occlusion in a patient with anorexia nervosa, 109

Plasmapheresis treatment of central retinal vein occlusion in a young adult, 519

Oculomotor nerve

Tonic pupil and orbital glial-neural hamartoma in infancy, 809

Opacification

Hypertension and lens opacities from the Beaver Dam Eye Study, 640

Mottled cyan opacification of the posterior cornea in contact lens wearers, 620

Ophthalmomyiasis

Cuterebra ophthalmomyiasis, 512

Ophthalmomyiasis interna

Acute posterior ophthalmomyiasis interna treated with photocoagulation, 106

Ophthalmoscopy

Agreement between clinicians and a confocal scanning laser ophthalmoscope in estimating cup/disk ratios, 415

Indirect ophthalmoscope perimetry in patients with retinal detachment or retinoschisis, 521

Reproducibility of retinal nerve fiber layer evaluation by dynamic scanning laser ophthalmoscopy (correspondence), 666

Optic disk

Optic disk swelling and abducens palsies associated with OKT3, 664

Pressure-dependent changes of the optic disk in primary open-angle glaucoma, 313

Vitrectomy lens for examination of the optic disk in young children with glaucoma, 523

Optic nerve

Color Doppler imaging and spectral analysis of the optic nerve vasculature in glaucoma, 685

Measurement of the subarachnoid pressure of the optic nerve in human subjects, 81

Orbit

Clinical features and treatment of seven patients with carcinoid tumor metastatic to the eye and orbit, 211

Gadolinium-enhanced magnetic resonance imaging assessment of hydroxyapatite orbital implants, 431

Tonic pupil and orbital glial-neural hamartoma in infancy, 809

Orthoclone OKT3

Optic disk swelling and abducens palsies associated with OKT3, 664

Osteitis deformans

Hemifacial spasm and osteitis deformans, 376

Ovadendron sp.

Ovadendron sulphureo-ochraceum endophthalmitis after cataract surgery, 307

P

Palsy

- Anterior segment ischemia after the Jensen procedure in a 10-year-old patient, 524
- Optic disk swelling and abducens palsies associated with OKT3, 664

Pars plana vitrectomy

- Scleromalacia after retinal detachment surgery, 803

Pars plicata

- Open-angle glaucoma after pars plicata lensectomy and vitrectomy for congenital cataracts, 103

Penetrating keratoplasty

- The effect of artificial tears on computer-assisted corneal topography in normal eyes and after penetrating keratoplasty, 712

Perimetry

- Comparison of high-pass resolution perimetry and standard automated perimetry in glaucoma, 195
- Indirect ophthalmoscope perimetry in patients with retinal detachment or retinoschisis, 521
- Macular sparing as a perimetric artifact, 72

Perspectives

- Diagnostic criteria for Graves' ophthalmopathy, 792

Phacoemulsification

- Combined phacoemulsification, posterior chamber intraocular lens implantation, and trabeculectomy with mitomycin C, 20

Photocoagulation

- Acute posterior ophthalmomyiasis interna treated with photocoagulation, 106
- Cataract in infants treated with argon laser photocoagulation for threshold retinopathy of prematurity, 175
- Diode laser photocoagulation for threshold retinopathy of prematurity in eyes with tunica vasculosa lentis, 748
- Quantitation of retinal ablation in proliferative diabetic retinopathy, 760

Photoreceptor dystrophies

- Retinal photoreceptor dystrophies. LI Edward Jackson Memorial Lecture, 543

Photorefractive keratectomy

- The effect of globe fixation on ablation zone centration in photorefractive keratectomy, 612

Pigment epithelium

- Clinicopathologic correlation of a case of adenocarcinoma of the retinal pigment epithelium, 243

Pituitary

- Metastatic tumors to the pituitary, 779

Polarimetry

- Scanning laser polarimetry to measure the nerve fiber layer of normal and glaucomatous eyes, 627

Polymerase chain reaction

- Human T-cell lymphotropic virus type I-associated uveitis in an African American, 104
- Screening corneas for human immunodeficiency virus type I proviral DNA by polymerase chain reaction, 7

Posner-Schlossman syndrome

- Possible role of herpes simplex virus in the origin of Posner-Schlossman syndrome, 796

Posterior hyaloid membrane

- Oval defect in detached posterior hyaloid membrane in idiopathic preretinal macular fibrosis (correspondence), 814

Preeclampsia

- White-centered retinal hemorrhages as an early sign of preeclampsia, 804

Proliferative diabetic retinopathy

- Quantitation of retinal ablation in proliferative diabetic retinopathy, 760
- Vitrectomy for proliferative diabetic retinopathy with severe equatorial fibrovascular proliferation, 563

Prosthesis

- Gadolinium-enhanced magnetic resonance imaging assessment of hydroxyapatite orbital implants, 431

Providone-iodine

- The effect of povidone-iodine solution applied at the conclusion of ophthalmic surgery, 701

Pseudoexfoliation

- Increased prevalence of occludable angles and angle-closure glaucoma in patients with pseudoexfoliation (correspondence), 526

Pseudohypopyon

- Macular pseudohypopyon from secondary syphilis, 372

Pseudophakia

- Membranous outgrowth suggesting lens epithelial cell proliferation in pseudophakic eyes, 706
- Pars plana Baerveldt tube insertion with vitrectomy in glaucomas associated with pseudophakia and aphakia, 401

Psoriasis

- Psoriatic corneal abscess, 800

Pterygium

- Increased numbers of mast cells in pterygia, 236

Pupil

- Influence of the time interval between instillation of two drops of cyclopentolate 1% on refraction and dilation of the pupil in children, 637
- Tonic pupil and orbital glial-neural hamartoma in infancy, 809

R

Rabies

- Eyelid laceration sustained in an attack by a rabid desert fox, 651

Radial keratotomy

- Bilateral *Serratia marcescens* keratitis after simultaneous bilateral radial keratotomy, 233
- Infection after radial keratotomy, 798
- Refractive changes at extreme altitude after radial keratotomy, 733
- Topographic determination of corneal asphericity and its lack of effect on the refractive outcome of radial keratotomy, 275

Radiotherapy

- Fractionated epibulbar 1-125 plaque radiotherapy for recurrent mucoepidermoid carcinoma of the bulbar conjunctiva, 102

Rathke's cleft cysts

- Ophthalmic manifestations of Rathke's cleft cysts, 86

Refraction

- Influence of the time interval between instillation of two drops of cyclopentolate 1% on refraction and dilation of the pupil in children, 637

Retina

- Branch retinal artery occlusion caused by a mitral valve papillary fibroelastoma, 325
- Branch retinal vein occlusion in a child with ocular sarcoidosis, 806
- Central retinal vein occlusion in a patient with anorexia nervosa, 109
- Clinicopathologic study of retinal and choroidal biopsies in intraocular inflammation, 597
- Long-term observation of retinal lesions in tuberous sclerosis, 318
- Ophthalmoscopic visualization of the inferior ophthalmic vein through a chorioretinal coloboma, 242
- Plasmapheresis treatment of central retinal vein occlusion in a young adult, 519
- Quantitation of retinal ablation in proliferative diabetic retinopathy, 760
- Quantitative eye and head movement recordings of retinal disease mimicking spasmus nutans, 374
- Reproducibility of retinal nerve fiber layer evaluation by dynamic scanning laser ophthalmoscopy (correspondence), 666
- Retinal photoreceptor dystrophies. LI Edward Jackson Memorial Lecture, 543
- Retinal trypsin digest study of cystoid macular edema associated with peripheral choroidal melanoma, 152
- Treatment of progressive outer retinal necrosis with sorivudine, 516
- White-centered retinal hemorrhages as an early sign of pre-eclampsia, 804

Retinal detachment

- Choroidal and retinal detachment in antineutrophil cytoplasmic antibody-positive scleritis, 517
- Indirect ophthalmoscope perimetry in patients with retinal detachment or retinoschisis, 521
- Scleromalacia after retinal detachment surgery, 803

Retinal pigment epithelium

- Clinicopathologic correlation of a case of adenocarcinoma of the retinal pigment epithelium, 243
- Recurrent acute multifocal placoid pigment epitheliopathy in two cousins, 660

Retinitis pigmentosa

- Retinitis pigmentosa associated with a dominant mutation in codon 46 of the peripherin/RDS gene (arginine-46-stop), 65

Retinoma

- Retinoma associated with vitreous seeding, 522

Retinopathy

- Acute annular outer retinopathy as a variant of acute zonal occult outer retinopathy, 330
- Asymmetric canthaxanthin retinopathy, 801
- Melanoma-associated retinopathy, 369
- Quantitation of retinal ablation in proliferative diabetic retinopathy, 760

Retinopathy of prematurity

- Cataract in infants treated with argon laser photocoagulation for threshold retinopathy of prematurity, 175
- Clinical course and systemic correlates of retinopathy of prematurity in quintuplets, 658
- Diode laser photocoagulation for threshold retinopathy of prematurity in eyes with tunica vasculosa lentis, 748

Retinoschisis

- Indirect ophthalmoscope perimetry in patients with retinal detachment or retinoschisis, 521

S

Sarcoidosis

- Branch retinal vein occlusion in a child with ocular sarcoidosis, 806
- Sarcoidosis of the eyelid skin, 100

Sclera

- Episcleral osteocartilaginous choristoma, 654
- Scleromalacia after retinal detachment surgery, 803

Scleritis

- Choroidal and retinal detachment in antineutrophil cytoplasmic antibody-positive scleritis, 517

Scleromalacia

- Scleromalacia after retinal detachment surgery, 803

Sclerostomy

- Inadvertent sclerostomy during transscleral Nd:YAG cyclophotocoagulation—correction (correspondence), 526

Seasonal affective disorder

- Ophthalmologic examination of patients with seasonal affective disorder, before and after bright light therapy, 202

Sensory heterotropia

- The prevalence of dissociated vertical deviation in patients with sensory heterotropia, 744

Serratia sp.

- Bilateral *Serratia marcescens* keratitis after simultaneous bilateral radial keratotomy, 233

Skew deviation

- Cyclodeviation in skew deviation (correspondence), 815

Slit lamp

- Proximity sensor dimmer device used with a slit lamp, 380

Spasm

- Hemifacial spasm and osteitis deformans, 376

Spasmus nutans

- Quantitative eye and head movement recordings of retinal disease mimicking spasmus nutans, 374

Staphylococcus sp.

Microorganisms cultured from the anterior chamber of ruptured globes at the time of repair, 181

Stereoacuity

Critical period for restoration of normal stereoacuity in acute-onset comitant esotropia (correspondence), 667

Stevens-Johnson syndrome

Hard-palate mucosa graft in Stevens-Johnson syndrome (correspondence), 817

Strabismus

The prevalence of dissociated vertical deviation in patients with sensory heterotropia, 744

Strabismus in Williams syndrome, 355

Subarachnoid pressure

Measurement of the subarachnoid pressure of the optic nerve in human subjects, 81

Sympathetic ophthalmia

Chlorambucil therapy in sympathetic ophthalmia, 482

Syphilis

Macular pseudohypopyon from secondary syphilis, 372

Poor correlation between reactive syphilis serology and human immunodeficiency virus testing among potential cornea donors, 1

Syphilis, serologic testing, and the setting of standards for eye banks, 93

T**T-cell lymphotropic virus type I**

Human T-cell lymphotropic virus type I-associated uveitis in an African American, 104

Tamoxifen

Screening for ocular toxicity in asymptomatic patients treated with tamoxifen (correspondence), 112

Temporal crescent

The missing temporal crescent, 345

Thyroid

Diagnostic criteria for Graves' ophthalmopathy, 792

Toxicity

Screening for ocular toxicity in asymptomatic patients treated with tamoxifen (correspondence), 112

Toxocariasis

Bilateral ocular toxocariasis demonstrated by aqueous humor enzyme-linked immunosorbent assay, 514

Trabeculectomy

Adjunctive mitomycin C in primary trabeculectomy in phakic eyes, 30

Combined phacoemulsification, posterior chamber intraocular lens implantation, and trabeculectomy with mitomycin C, 20

Transforming growth factor

Progression of nuclear sclerosis and long-term visual results of virolysis with transforming growth factor beta-2 for macular holes (correspondence), 819

Transplantation

Local therapy of corneal allograft rejection with cyclosporine, 189

Tuberous sclerosis

Long-term observation of retinal lesions in tuberous sclerosis, 318

Tumor

Clinical features and treatment of seven patients with carcinoid tumor metastatic to the eye and orbit, 211

Combined dacryops with underlying benign mixed cell tumor of the lacrimal gland, 97

Metastatic tumors to the iris in 40 patients, 422

Metastatic tumors to the pituitary, 779

Tunica vasculosa lentis

Diode laser photocoagulation for threshold retinopathy of prematurity in eyes with tunica vasculosa lentis, 748

U**Ultrasonography**

Clinical correlation of ultrasonographic findings in macular holes, 441

Urea

No demonstrated effect of pre-enucleation irradiation on survival of patients with uveal melanoma, 786

Uvea

Lens changes after proton beam irradiation for uveal melanoma, 157

Metastatic tumors to the iris in 40 patients, 422

Uveitis

Human T-cell lymphotropic virus type I-associated uveitis in an African American, 104

Relapsing acute myeloid leukemia manifesting as hypopyon uveitis, 361

V**Vancomycin**

Vancomycin levels in the vitreous cavity after intravenous administration, 774

Varicella-zoster

Treatment of progressive outer retinal necrosis with sorivudine, 516

Vein

Central retinal vein occlusion in a patient with anorexia nervosa, 109

Ophthalmoscopic visualization of the inferior ophthalmic vein through a chorioretinal coloboma, 242

Plasmapheresis treatment of central retinal vein occlusion in a young adult, 519

Verapamil

Color Doppler ultrasound analysis of ocular circulation after topical calcium channel blocker, 694

Videoangiography

Indocyanine green videoangiography of angioid streaks, 136

Videokeratoscopy

Biometric evidence of keratoconus with an apex power of 45.5 diopters by videokeratoscopy, 366

Vitrectomy

Open-angle glaucoma after pars plicata lensectomy and vitrectomy for congenital cataracts, 103

Pars plana Baerveldt tube insertion with vitrectomy in glaucomas associated with pseudophakia and aphakia, 401

Virus

Viral sensitivity testing in patients with cytomegalovirus retinitis clinically resistant to foscarnet or ganciclovir, 587

Visual field

Hourglass-shaped visual fields as a sign of bilateral lateral geniculate myelinolysis, 378

Vitrectomy

Evaluation of vitrectomy machines as a source of false-positive culture contamination in endophthalmitis, 62

Progression of nuclear sclerosis and long-term visual results of vitrectomy with transforming growth factor beta-2 for macular holes (correspondence), 819

Progression of nuclear sclerosis and long-term visual results of vitrectomy with transforming growth factor beta-2 for macular holes, 48

Vitrectomy for proliferative diabetic retinopathy with severe equatorial fibrovascular proliferation, 563

Vitrectomy lens for examination of the optic disk in young children with glaucoma, 523

Vitreomacular traction syndrome

Course of vitreomacular traction syndrome, 55

Vitreous

Course of vitreomacular traction syndrome, 55

Progression of nuclear sclerosis and long-term visual results of vitrectomy with transforming growth factor beta-2 for macular holes, 48

A prospective study of dense spontaneous vitreous hemorrhage, 458

Retinoma associated with vitreous seeding, 522

Vancomycin levels in the vitreous cavity after intravenous administration, 774

Vogt-Koyanagi-Harada syndrome

Simultaneous onset of Vogt-Koyanagi-Harada syndrome in monozygotic twins, 239

W

Williams syndrome

Strabismus in Williams syndrome, 355

ABSTRACT INDEX

A

Abducens nerve

Results of a prospective randomized trial of botulinum toxin therapy in acute unilateral sixth nerve palsy, 257

Ablation

Vitreoretinal ablation with the 193-nm excimer laser in fluid media, 254

Acanthamoeba sp.

Drug resistance and *Acanthamoeba* keratitis: the quest for alternative antiprotozoal chemotherapy, 251

Acquired immunodeficiency syndrome

Virus-specific antibody responses to human cytomegalovirus (HCMV) in human immunodeficiency virus type 1-infected persons with HCMV retinitis, 679

Acute lymphoblastic leukemia

Ocular sequelae of multimodal therapy of hematologic malignancies in children, 120

Adenoma

Visual loss in pregnant women with pituitary adenomas, 256

Adenosine triphosphate

Adenosine triphosphate deficiency: a genre of optic neuropathy, 536

Adenovirus

Use of polymerase chain amplification reaction for the detection of adenoviruses in ocular swab specimens, 251

Aging

Antioxidants and eye disease, 253

Epidemiology of risk factors for age-related cataract, 674

If we live long enough, will we all be demented? 124

Laser photocoagulation to treat macular soft drusen in age-related macular degeneration, 535

A potential noninvasive neurobiological test for Alzheimer's disease, 255

The relationship of age-related maculopathy, cataract, and glaucoma to visual acuity, 674

Retinopathy, glucose, and insulin in an elderly population. The Rotterdam Study, 678

Transplantation of fetal retinal pigment epithelium in age-related macular degeneration with subfoveal neovascularization, 389

A twin study on age-related macular degeneration, 396

Visual field loss in *senile dementia* of the Alzheimer's type, 536

Why does the human visual system age in the way it does?, 681

Alzheimer's disease

A potential noninvasive neurobiological test for Alzheimer's disease, 255

Visual field loss in *senile dementia* of the Alzheimer's type, 536

Amaurosis fugax

The source of embolism in amaurosis fugax and retinal artery occlusion, 120

Amblyogenic factors

Video vision development assessment (VVDA): combining the Brückner test with eccentric photorefractive for dynamic identification of amblyogenic factors in infants and children, 396

Amblyopia

Steroid injection versus conservative treatment of anisometropia amblyopia in juvenile adnexal hemangioma, 828

Anesthesia

The effect of hyaluronidase on peribulbar block, 390

Single medial injection peribulbar anesthesia using prilocaine, 391

Angle of deviation

Progressive increase in the angle of deviation in congenital esotropia, 537

Anisometropia

Steroid injection versus conservative treatment of anisometropia amblyopia in juvenile adnexal hemangioma, 828

Video vision development assessment (VVDA): combining the Brückner test with eccentric photorefractive for dynamic identification of amblyogenic factors in infants and children, 396

Antibiotic

Antibiotic prophylaxis in corneal storage media, 538

Antibody

Virus-specific antibody responses to human cytomegalovirus (HCMV) in human immunodeficiency virus type 1-infected persons with HCMV retinitis, 679

Antiemetic prophylaxis

Antiemetic prophylaxis for strabismus surgery, 257

Antihistamine

Evaluation of the new ophthalmic antihistamine, 0.05% levocabastine, in the clinical allergen challenge model of allergic conjunctivitis, 118

Antioxidant

Antioxidants and eye disease, 253

Arabic eye test

The Arabic eye test revisited, 833

Artery

The source of embolism in amaurosis fugax and retinal artery occlusion, 120

Artificial tears

Nasal irritation from eye drops, 121

B

Botulinum toxin

Observations on bilateral simultaneous botulinum toxin injection in infantile esotropia, 119

Results of a prospective randomized trial of botulinum toxin therapy in acute unilateral sixth nerve palsy, 257

Treatment of hemifacial spasm with botulinum toxin. Value of preinjection electromyography abnormalities for predicting postinjection lower facial paresis, 829

Circadian rhythm

- Suppression of melatonin secretion in some blind patients by exposure to bright light, 532

Color blindness

- The chemistry of John Dalton's color blindness, 833
- A two-and-a-half color rainbow. Color blindness in physicians, 392

Color vision

- Distorted color discrimination in 'de novo' parkinsonian patients, 680
- Impairment of color vision among workers exposed to low concentrations of styrene, 254
- Numbers and ratios of visual pigment genes for normal red-green color vision, 833

Computed tomography

- Cranio-orbital reconstruction: safety and image quality of metallic implants on CT and MRI scanning, 258
- CT diagnosis of unsuspected traumatic cataracts in patients with complicated eye injuries: significance of attenuation value of the lens, 674

Cone-rod dystrophy

- The role of molecular genetics in the prenatal diagnosis of retinal dystrophies, 827
- 'Unilateral cone dystrophy': ERG changes implicate abnormal signaling by hyperpolarizing bipolar and/or horizontal cell, 832

Conjunctiva

- Use of polymerase chain amplification reaction for the detection of adenoviruses in ocular swab specimens, 251

Conjunctivitis

- Evaluation of the new ophthalmic antihistamine, 0.05% levocabastine, in the clinical allergen challenge model of allergic conjunctivitis, 118
- Guidelines on the diagnosis and treatment of conjunctivitis, 252
- Mast cell distribution and neutral protease expression in acute and chronic allergic conjunctivitis, 828

Contact lens

- A survey of U.S. Air Force flyers regarding their use of extended wear contact lenses, 391

Cornea

- Antibiotic prophylaxis in corneal storage media, 538
- $\alpha 2$ -Macroglobulin levels in normal human and keratoconus corneas, 251
- Vitreoretinal ablation with the 193-nm excimer laser in fluid media, 254

Corticosteroid

- Steroid injection versus conservative treatment of anisometropia amblyopia in juvenile adnexal hemangioma, 828

Cyclophotocoagulation

- Noncontact transscleral Nd:YAG cyclophotocoagulation: a long-term follow-up of 500 patients, 677

Cytomegalovirus

Virus-specific antibody responses to human cytomegalovirus (HCMV) in human immunodeficiency virus type 1-infected persons with HCMV retinitis, 679

D

Dacryocystoplasty

Dacryocystoplasty: treatment of epiphora by means of balloon dilation of the obstructed nasolacrimal duct system, 392

Decompression

Endoscopic orbital decompression, 122

Orbital decompression in Graves' disease, 122

Diabetes mellitus

Long-term prognosis of intraocular lens implantation in diabetic patients, 825

Pupil size in diabetes, 535

Retinopathy in African Americans and whites with insulin-dependent diabetes mellitus, 535

Diabetic retinopathy

Digoxin does not accelerate progression of diabetic retinopathy, 826

The natural history of the first clinically visible features of diabetic retinopathy, 396

A quantitative system to evaluate diabetic retinopathy from fundus photographs, 678

Undetected eye disease in a primary care clinic population, 118

Vascular endothelial growth factor in ocular fluid of patients with diabetic retinopathy and other retinal disorders, 389

Digoxin

Digoxin does not accelerate progression of diabetic retinopathy, 826

Dorzolamide

Dorzolamide, a topical carbonic anhydrase inhibitor: a two-week dose-response study in patients with glaucoma or ocular hypertension, 390

Drug reactions

Physicians' liability for adverse drug reactions, 123

Drusen

Laser photocoagulation to treat macular soft drusen in age-related macular degeneration, 535

Photocoagulation of drusen-related macular degeneration: a long-term outcome, 677

Duane's syndrome

Video loop MRI of ocular motility disorders, 830

E

Electroretinography

Retrospective study of hyperabnormal (supranormal) electroretinographic responses in 104 patients, 539

Embolism

The source of embolism in amaurosis fugax and retinal artery occlusion, 120

Endophthalmitis

Mortality of hospitalized patients with *Candida* endophthalmitis, 254

Endothelial growth factor

Vascular endothelial growth factor in ocular fluid of patients with diabetic retinopathy and other retinal disorders, 389

Epiphora

Dacryocystoplasty: treatment of epiphora by means of balloon dilation of the obstructed nasolacrimal duct system, 392

Epi-retinal membrane

The epidemiology of epi-retinal membranes, 831

Esotropia

Progressive increase in the angle of deviation in congenital esotropia, 537

Exfoliation syndrome

Exfoliation syndrome and occludable angles, 397

External beam irradiation

Radiation optic neuropathy after megavoltage external-beam irradiation: analysis of time-dose factors, 532

Radiation retinopathy after external-beam irradiation: analysis of time-dose factors, 533

Severe dry-eye syndrome following external beam irradiation, 533

Eye movements

Treatment of abnormal eye movements that impair vision: strategies based on current concepts of physiology and pharmacology, 119

Eyedrop

Nasal irritation from eye drops, 121

Eyelid

Heterogeneous length and in-series arrangement of orbicularis oculi muscle: individual myofibers do not extend the length of the eyelid, 537

Steroid injection versus conservative treatment of anisometropia amblyopia in juvenile adnexal hemangioma, 828

Treatment of hemifacial spasm with botulinum toxin. Value of preinjection electromyography abnormalities for predicting postinjection lower facial paresis, 829

Upper eyelid retraction in the absence of other evidence for progressive ophthalmopathy is associated with eye muscle autoantibodies, 680

F

5-fluorouracil

Postoperative complications and short-term outcome after 5-fluorouracil or mitomycin-C trabeculectomy, 675

Fundus

A quantitative system to evaluate diabetic retinopathy from fundus photographs, 678

G

Genetics

Numbers and ratios of visual pigment genes for normal red-green color vision, 833

Glaucoma

Clinical evaluation of the optic nerve in glaucoma, 395

Dorzolamide, a topical carbonic anhydrase inhibitor: a two-week dose-response study in patients with glaucoma or ocular hypertension, 390

Primary open-angle glaucoma is not associated with photoreceptor loss, 675

The relationship of age-related maculopathy, cataract, and glaucoma to visual acuity, 674

Undetected eye disease in a primary care clinic population, 118

Glaucoma filtering surgery

The effects of glaucoma filtering surgery on the variability of diurnal intraocular pressure, 831

Globe

Perforation of the globe during retrobulbar injection: medicolegal aspects of four cases, 123

Graves' ophthalmopathy

The epidemiologic characteristics and clinical course of ophthalmopathy associated with autoimmune thyroid disease in Olmsted County, Minnesota, 394

The incidence of ophthalmopathy after radioiodine therapy for Graves' disease: prognostic factors and the role of methimazole, 122

Orbital decompression in Graves' disease, 122

Health care

Big-time biology, 124

Geographic variation in utilization of cataract surgery, 825

Health care reform. Past and present, 681

How to break bad news—and not devastate the patient, 124

Patients' rights after health care reform: who decides what is medically necessary?, 259

Reframing the debate on health care reform by replacing our metaphors, 833

The slippery slope in medicine, 125

Hemangioma

Steroid injection versus conservative treatment of anisometropia amblyopia in juvenile adnexal hemangioma, 828

Hemifacial spasm

Microvascular decompression for hemifacial spasm, 829

Treatment of hemifacial spasm with botulinum toxin. Value of preinjection electromyography abnormalities for predicting postinjection lower facial paresis, 829

Hemorrhage

Are the pupils of premature infants affected by intraventricular hemorrhage?, 391

Perforation of the globe during retrobulbar injection: medicolegal aspects of four cases, 123

History of ophthalmology

The eye and its diseases in antiquity. A compilation based on finds from ancient times, 394

Human immunodeficiency virus

Virus-specific antibody responses to human cytomegalovirus (HCMV) in human immunodeficiency virus type 1-infected persons with HCMV retinitis, 679

Hyaluronidase

The effect of hyaluronidase on peribulbar block, 390

Hypertension

Dorzolamide, a topical carbonic anhydrase inhibitor: a two-week dose-response study in patients with glaucoma or ocular hypertension, 390

Idiopathic intracranial hypertension associated with tetracycline use in fraternal twins: case reports and review, 536

Hypotension

Correlates of acute exercise-induced ocular hypotension, 253

I

Implant

Cranio-orbital reconstruction: safety and image quality of metallic implants on CT and MRI scanning, 258

Incontinentia pigmenti

The blinding mechanisms of incontinentia pigmenti, 537

Infantile esotropia

Observations on bilateral simultaneous botulinum toxin injection in infantile esotropia, 119

Infants

Are the pupils of premature infants affected by intraventricular hemorrhage?, 391

A controlled trial of povidone-iodine as prophylaxis against ophthalmia neonatorum, 827

Patterns of visual impairment associated with lesions of the preterm infant brain, 255

Retinopathy of prematurity in extremely low birth weight infants, 679

Video vision development assessment (VVDA): combining the Brückner test with eccentric photorefraction for dynamic identification of amblyogenic factors in infants and children, 396

Inflammation

Retinal and choroidal biopsy in intraocular inflammation: a clinicopathologic study, 832

Interferon

Interferon alfa-2a modifies the course of subfoveal and juxtafoveal choroidal neovascularisation, 120

Intraocular lens

Long-term prognosis of intraocular lens implantation in diabetic patients, 825

Surgical management of dislocated intraocular lenses, 676

Intraocular pressure

The effects of glaucoma filtering surgery on the variability of diurnal intraocular pressure, 831

Ischemia

Transient ischemic attack and minor ischemic stroke: an algorithm for evaluation and treatment, 257

K

Keratitis

Drug resistance and *Acanthamoeba* keratitis: the quest for alternative antiprotozoal chemotherapy, 251

Keratoconjunctivitis sicca

Severe dry-eye syndrome following external beam irradiation, 533

Keratoconus

α 2-Macroglobulin levels in normal human and keratoconus corneas, 251

L

Lagophthalmos

Eye disease in newly diagnosed leprosy patients in eastern Nepal, 252

Laser

- Excimer laser photorefractive keratectomy for myopia: a single surgeon best-case analysis, 676
- Noncontact transscleral Nd:YAG cyclophotocoagulation: a long-term follow-up of 500 patients, 677
- Treatment of nevus of Ota with the Q-switched ruby laser, 534
- Vitreoretinal ablation with the 193-nm excimer laser in fluid media, 254

Lens

- CT diagnosis of unsuspected traumatic cataracts in patients with complicated eye injuries: significance of attenuation value of the lens, 674
- Ocular lens findings in patients treated with PUVA, 252

Leprosy

- Eye disease in newly diagnosed leprosy patients in eastern Nepal, 252

Levocabastine

- Evaluation of the new ophthalmic antihistamine, 0.05% levocabastine, in the clinical allergen challenge model of allergic conjunctivitis, 118
